# BIG SLAB FEATURES

## Extra-Large Slab For Extraordinary Impressions

Five main sizes: 1600\*3200 mm, 900\*2600 mm, 900\*1800 mm, 800\*1600 mm, 600\*1200 mm. The extra-large tiles visually extend the space for an impression of spaciousness and flowing decoration. They are ideal for large spaces, especially public spaces.

## More Applications To Inspire Creativity

The extra-large super stone panels come in various sizes and can be used in a wide range of spaces, unlike smaller, older products. They can be applied to indoor and outdoor walls and floors, as well as used as cupboard panels, table tops, and countertops, sparking users' creativity.

## Authentic Textures With Fine Workmanship

3D high-definition digital technology is used to replicate the authentic textures of marble. Plus a fine touch, delicate gloss, and high stability, they are ideal for spaces of different styles.

## High Quality With High Technology

Our advanced pressing techniques result in high density and hardness. We use a world-leading loading process and toughener to provide increased breaking strength. Our panels surpass marble in both physical and chemical properties, as well as weather resistance. They are suitable for use on indoor and outdoor walls and floors.

## ADVANTAGES

- **Scratch Resistant**  
Special surface; resistant to topical and deeper scratches; retains high surface quality even when cleaned frequently.
- **Heat Resistant**  
Fire and heat resistant; no toxins released in the case of fire.
- **Chemical Resistant**  
Resistant to organic and non-organic solvents, sanitizers and detergents. Easy to clean; surface and deco-colors do not wash off.
- **No Color Variation**  
Ceramic character resists sun radiations; high color-stability even under extreme weather conditions.
- **Low Water Absorption**  
Extremely low water absorption rate makes slim water and frost resistant.
